

# GOSECURE TITAN

## KEY BENEFITS

### Enhanced Threat Detection

Identify advanced threats, including lateral movement, insider risks, and Advanced Persistent Threats (APTs).

### Streamlined Incident Response

Simplify response workflows with actionable insights and expert SOC management.

### Stronger Cybersecurity Posture

Fortify defenses with a solution that integrates seamlessly with your existing security stack.

## BUSINESS DRIVERS

### Increasing Complexity of Cyber Threats

Addressing sophisticated threats requires advanced detection solutions.

### Demand for Managed Services

Clients seek solutions that bridge gaps in traditional monitoring tools.

### Compliance and Regulatory Standards

GoSecure Titan® MNDR aligns with frameworks like NIST, SOC2, and GDPR to simplify compliance.

## GOSECURE TITAN® MANAGED NETWORK DETECTION AND RESPONSE (MNDR)

2025

[Unparalleled Network Visibility, Managed by Experts]

GoSecure Titan® Managed Network Detection and Response (MNDR) is a cutting-edge solution designed to provide unmatched visibility into east-to-west network traffic.

Managed exclusively by GoSecure's world-class Security Operations Center (SOC), GoSecure Titan® MNDR enables advanced threat detection, simplifies incident response, and strengthens cybersecurity postures—all in alignment with NIST standards and industry best practices.

### > WHY GOSECURE TITAN® MANAGED NDR?

- **Comprehensive Lateral Traffic Monitoring**

GoSecure Titan® MNDR provides deep visibility into lateral network traffic, an area often overlooked by traditional security solutions. By focusing on east-to-west traffic, it offers a more complete understanding of your network activity.

- **Proprietary Threat Intelligence & SOC Expertise**

Leverage GoSecure's proprietary detections, behavioral analytics, machine learning, and SOC expertise to stay ahead of emerging threats.

- **Fully Managed Deployment & Updates**

GoSecure Titan® MNDR is fully managed service includes deployment, monitoring, and updates, reducing the operational burden on your team.

- **SOC 2 Compliance Alignment**

GoSecure Titan® MNDR ensures robust monitoring, logging, and response capabilities, supporting SOC 2 compliance and audit readiness. Demonstrate a strong commitment to securing sensitive client data and building trust with stakeholders.

- **Seamless Integration**

GoSecure Titan® MNDR integrates effortlessly into your existing cybersecurity ecosystem, enhancing your managed detection and response capabilities without disrupting operations.

## › DELIVERS TANGIBLE OUTCOMES

GoSecure Titan® MNDR empowers organizations with proactive threat detection and response capabilities, enhancing their overall network security posture. By simplifying compliance and audit readiness, it allows teams to focus on strategic priorities without compromising security or regulatory obligations.

## › ADVANCED FEATURES THAT MAKE A DIFFERENCE

With comprehensive east-to-west traffic monitoring, GoSecure Titan® MNDR offers unparalleled visibility into lateral network activity, addressing gaps often left by traditional tools. Its behavioral analytics and machine learning capabilities enable the identification of sophisticated threats, while seamless integration with GoSecure Titan® technology further strengthens security infrastructure.

These features provide vital visibility into hidden threats, significantly reduce detection and response times, and ensure seamless SOC operations. Combined, they enable organizations to stay ahead of cyber risks in the changing threat environment.

GoSecure Titan® MNDR stands out due to its proprietary detection rules crafted by GoSecure's experts. Fully managed deployment, monitoring, and updates eliminate operational burdens for clients. Deep integration with GoSecure's cybersecurity stack ensures comprehensive protection and maximum efficiency.

By bridging gaps in traditional monitoring tools, GoSecure Titan® MNDR empowers SOC teams to detect and neutralize east-to-west traffic threats while proactively hunting for risks using real-time analytics. Organizations prioritizing robust cybersecurity gain a solution that delivers unparalleled visibility and detection capabilities, all managed by GoSecure's expert SOC for unmatched operational efficiency and security.

[CONTACT US: +1-855-893-5428]

GoSecure is a recognized cybersecurity leader and innovator, pioneering the integration of endpoint, network, and email threat detection into a single Managed Extended Detection and Response (MXDR) service. The GoSecure Titan® platform delivers predictive multi-vector detection, prevention, and response to counter modern cyber threats. GoSecure Titan® MXDR delivers rapid response and active mitigation services that directly touch the customers' network and endpoints. For over 20 years, GoSecure has been helping customers better understand their security gaps and improve their organizational risk and security maturity through MXDR and Professional Services solutions delivered by one of the most trusted and skilled teams in the industry.
