# GOSECURE TITAN

## GOSECURE TITAN® MANAGED EXTENDED DETECTION & RESPONSE (MXDR)

### [A FOUNDATION YOU CAN TRUST & BUILD UPON]

GoSecure Titan® Managed Extended Detection & Response (MXDR) identifies, blocks & reports potential breaches, often before the organization is even aware there is an issue – backed by the experienced threat hunters in the GoSecure Security Operations Center (SOC) who respond swiftly to help remediate issues.

**IDENTIFY**

Find threats across endpoints, networks, email and the web through automated monitoring and human threat hunting. Identifies sophisticated potential attacks like hidden malware and negligent/malicious insiders.

**MITIGATE**

Experience rapid threat detection and response with GoSecure's Security Operations Center (SOC). Our SOC experts act as an extension of your in-house security team, delivering 24/7 threat mitigation based on your custom playbook, ensuring threats are stopped before they spread.

**RESPONSE**

With GoSecure Titan® Security Information and Event Management (SIEM) included in every GoSecure Titan® MXDR bundles, this component collects and analyzes security-related data from various sources (such as endpoints, network devices, and cloud infrastructure) to identify and respond to potential threats.

## GOSECURE TITAN® MXDR ADVANTAGE

- Identifies, blocks and reports potential breaches, often before the organization is even aware there is an issue.
- GoSecure blends automation with expert-level human analysis to provide an advantage over other tools and services, resulting in fewer false positives.
- Continuous 24/7 automated monitoring and human-managed support protect organizations around the clock – because breaches can happen at any time.
- The GoSecure Titan® Platform centralizes client security health data – delivering easy-to-understand charts and graphs for network, endpoint and event data – and ticketing, into a single pane of glass.
- Includes Endpoint, Network & Inbox protection, Security Information and Event Management (SIEM), Security Orchestration, Automation and Response (SOAR), Threat Intelligence, Human-led Incident Handling & Threat Reporting.
- By leveraging our Open XDR strategy, GoSecure Titan® MXDR is designed to support existing investments Clients have thus the option of running with GoSecure chosen technologies or leverage a "bring your own license (BYOL)" model.

## COMPREHENSIVE COVERAGE

GoSecure Titan® Managed Extended Detection & Response (MXDR) service includes a combination of technology and human expertise to detect and respond to threats on a network, including automated responses, threat hunting, and human analysis. This service is ideal for organizations without the resources or expertise to manage their own cybersecurity or those looking to augment their in-house capabilities.

## A MAJOR PLAYER IN MXDR

GoSecure was designated a Major Playerin the IDC 2021 Managed Detection& Response Marketscape Report. This multi-dimensional review recognized the platform's flexibility, tailored client playbooks, integrated anti-phishing options and emergency services capabilities.
