

GOSECURE TITAN

UNPARALLELED PROTECTION

What sets GoSecure apart is our proprietary EDR system, purposefully designed to detect and swiftly respond to advanced and evolving threats.

By amalgamating antivirus functionalities, Microsoft and Checkpoint integration, and our specialized EDR, we deliver an unparalleled level of endpoint protection.

DETECT AND RESPOND TO ADVANCED THREATS

GoSecure Titan® EDR solution functions as a unified shield against a spectrum of threats, providing a multi-layered defense mechanism.

Our holistic approach not only detects known vulnerabilities but also preemptively identifies and mitigates emerging threats before they can cause harm.

GOSECURE TITAN® ENDPOINT DETECTION AND RESPONSE (EDR)

2023

[Industry Leading Visibility and Correlation for Fastest Response]

In the ever-evolving landscape of cybersecurity, the need for robust endpoint protection has become paramount. GoSecure leads the charge by offering a sophisticated solution that goes beyond conventional antivirus software. Our approach encompasses a comprehensive open framework and infrastructure that integrates well-known endpoint detection and response tools, including Microsoft and Checkpoint, alongside our proprietary EDR system.

These tools, recognized for their effectiveness in threat detection and response, are pivotal components within our cybersecurity architecture.

> GOSECURE TITAN® EDR FEATURES

- **In-Memory Detection:** GoSecure Titan® EDR detects malware on-disk and suspicious behavior in the OS. It is the only solution that detects advanced threats in physical memory. GoSecure Titan® Managed Extended Detection and Response (MXDR) extends threat detection across the network, endpoints, and the cloud.
- **Machine Learning:** GoSecure Titan® EDR applies advanced Machine Learning to on-disk, OS behavior, and in-memory threat data. It delivers predictive accuracy and reduces false positives to near zero. Machine Learning provides the confidence to convict, prioritize and mitigate threats faster and more efficiently.
- **Predictive Analytics:** Predictive Analytics integrates the analysis of behavior on disk, in the OS and in memory. It accesses a threat library of over 4,000 traits and capabilities to predict threat intentions and pinpoint root causes. Predictive Analytics delivers the visibility needed to mitigate threats before they can execute.
- **Automatic Mitigation:** GoSecure Titan® EDR automatically mitigates threats. Quarantine, kill process and inoculate terminate threats in the early stages. Deny, delay and degrade provide additional time to focus on the highest priority threats and make better mitigation decisions.
- **Cloud Delivered:** GoSecure Titan® EDR is offered in the cloud, via managed security services and on-premises. Organizations can fund out of OpEx or CapEx. Cloud and MSS options offer GoSecure Titan® EDR in a single, affordable monthly subscription.

INCLUDED IN THE GOSECURE TITAN® MANAGED EXTENDED DETECTION & RESPONSE (MXDR) SERVICE OFFERING

GoSecure Titan® MXDR is designed to maximize a client's security investments by leveraging SIEM and SOAR backend technologies to integrate and analyze security data. GoSecure Titan® MXDR service enhances flexibility and integration by ingesting market-leading EDRs (including Check Point EDR, MS Defender and GoSecure EDR) as well as Windows Events including Sysmon, Firewall logs and NGAV logs.

The GoSecure Titan® MXDR solution rests on four distinct pillars: Next-Generation Antivirus (NGAV), **Endpoint Detection and Response agent (EDR)**, Network Detection and Response (NDR) and Inbox Detection and Response (IDR).

SERVICE COMPONENTS	FOUNDATION	AWARE	INSIGHT	ELITE
Endpoint Detection & Response (EDR)	✓	✓	✓	✓
Next-Generation Antivirus (NGAV)	✓	✓	✓	✓
Network Detection & Response (NDR)* • Virtual Log Collector • Predetermined Relevant Security Event Sources	✓	✓	✓	✓
Inbox Detection & Response (IDR)	✓	✓	✓	✓
Security Orchestration, Automation, and Response (SOAR)	✓	✓	✓	✓
Monitoring, Threat Hunting and Response Services • 24/7 Eye on the screen Monitoring • 24/7 Live SOC Analyst support • 24/7 Threat Hunting	✓	✓	✓	✓
GoSecure Titan Platform	✓	✓	✓	✓
GoSecure Titan® - Vulnerability Management Scanning Pack	x	✓	✓	✓
GoSecure Titan® - Managed SIEM	x	Optional	✓	✓
GoSecure Titan® - Vulnerability Management Endpoint Patching Pack	x	Optional	Optional	✓
GoSecure Titan® - Vulnerability Management Server Patching Pack	x	Optional	Optional	Optional
Additional Virtual Log Collector and/or Connectors Pack	x	Optional	Optional	Optional
GoSecure Titan® - Managed Perimeter Defense	Optional	Optional	Optional	Optional

GoSecure is a recognized cybersecurity leader and innovator, pioneering the integration of endpoint, network, and email threat detection into a single Managed Extended Detection and Response (MXDR) service. The GoSecure Titan® platform delivers predictive multi-vector detection, prevention, and response to counter modern cyber threats. GoSecure Titan® MXDR delivers rapid response and active mitigation services that directly touch the customers' network and endpoints. For over 20 years, GoSecure has been helping customers better understand their security gaps and improve their organizational risk and security maturity through MXDR and Professional Services solutions delivered by one of the most trusted and skilled teams in the industry.
