

GOSECURE TITAN

2023

ENHANCING THREAT DETECTION AND RESPONSE

By implementing GoSecure Titan® Identity, organizations will:

- Improve their ability to detect threats
- Respond to identity-based threats promptly
- Reduce the risk of data breaches, unauthorized access, and other security incidents that may arise from compromised user identities.

ACTIVE DIRECTORY + RELATED COMPONENTS ARE CRITICAL FOR CREDENTIAL ATTACKS

GoSecure Titan® Identity is:

- A Managed Service
- Cloud Native

GOSECURE TITAN® IDENTITY

[GoSecure Titan® Identity is designed to generate alerts based on specific real-world offensive techniques]

ACTIONABLE ALERTING AND MITRE ATT&CK INTEGRATION

GoSecure Titan® Identity is a suite of technologies that deliver detections and alerts as a service.

Organizations use **GoSecure Titan® Identity** to provide high quality (low false negative and false positive) alerts to their in-house operations personnel without the need to build and maintain complex data-science-based analytics. Its detections are classified by MITRE ATT&CK technique which facilitates triggering response procedures/runbooks within the client's operations center.

It is optimized to detect the most critical identity-related attacks, thus providing high security value.

GoSecure is a recognized cybersecurity leader and innovator, pioneering the integration of endpoint, network, and email threat detection into a single Managed Extended Detection and Response (MXDR) service. The GoSecure Titan® platform delivers predictive multi-vector detection, prevention, and response to counter modern cyber threats. GoSecure Titan® MXDR delivers rapid response and active mitigation services that directly touch the customers' network and endpoints. For over 20 years, GoSecure has been helping customers better understand their security gaps and improve their organizational risk and security maturity through MXDR and Professional Services solutions delivered by one of the most trusted and skilled teams in the industry.
